

AI Working Group opportunity

Background

Advances in generative AI (Artificial Intelligence) and related digital tools offer opportunities to improve overall efficiency, automate routine tasks, and allow the IO Division to better support staff and volunteers.

The remit of the AI Working Group is to examine potential uses of AI within CAMRA and to provide clear, practical guidance around its responsible, ethical, and effective use, as well as suggest AI projects for future implementation.

For more information, please refer to the remit [here](#).

Interested applicants should have:

- An interest in generative AI.
- Some understanding of relevant tools as well as their capabilities and limitations.
- Knowledge of CAMRA and its goals as an organisation.
- Access to the internet via a laptop, tablet or other device capable of joining an online meeting.
- Technical knowledge is not required!

Time commitment

The AI Working Group will be established as a time-limited group and aims to complete its guidelines and recommendations within 3-6 months. The Group will meet online via Teams with other business carried out by email between meetings. The frequency of meetings will be determined at the first meeting but are likely to be held at least monthly, on weekday evenings, for an hour.

Interested?

Please get in touch with Cam Weddell at: camilla.weddell@camra.org.uk by 6 March, outlining why you wish to join the group, and any relevant professional or voluntary experience.
